

## MAROONS BRING SCALPS GALORE FROM FAR EAST

With but one defeat chalked up against their record in the Orient, the University of Chicago baseball team returned to Honolulu today on the Tenyo Maru. The Maroons have played 41 games since they left Chicago, winning 33, losing 7 and tied in one game. Three of the defeats were by Honolulu teams, three by mainland organizations and one in the Orient. The Midway crowd had a clean slate in Japan.

The Chicago players expressed themselves as well pleased with their treatment in the Orient and all stated that they were royally entertained in Japan and the Philippines. The members of the party will leave for Chicago tomorrow morning at 10 o'clock. This afternoon the party go surfing at Waikiki.

Those arriving today were Mr. and Mrs. H. Grille Page, J. E. Cole, F. A. Catron, Roland H. George, N. G. Hart, E. D. Cavin, Paul Des Jardien, L. W. Gray, E. F. Kimmiller, P. N. McConnell and H. Rudolph.

The British steamer Bankdale, from New York, on which fire was discovered at sea, arrived at Boroaux.

## FREAR KEEPS SECRET CABLE ON BUILDING SITE FOR UNCLE SAM

That the federal building site question is drawing toward a favorable conclusion, and that negotiations will not have to continue much longer, is the opinion of Walter F. Frear, of the law firm of Frear, Prosser, Anderson and Marx, which is representing the Irwin estate. Former Governor Frear, however, will not commit himself in the matter of whether he thinks the Irwin site will be selected for the federal building. His statement that affairs are drawing to a "favorable conclusion" indicates that he is optimistic. A cablegram purporting to contain information regarding the building site was received on Saturday by Malcolm A. Franklin, collector of customs, who communicated the contents to Mr. Frear. The cable came from Assistant Secretary of the Treasury Byron R. Newton.

## FLEXNER PARTY ON TENYO BOUND BACK TO COAST

With a large number of cabin passengers on board, including Dr. Simon Flexner, Dr. Wallace Buttrick, Dr. F. L. Gates and Dr. W. H. Welch of the Rockefeller Foundation, who are returning from China, where they went to establish modern hospitals and medical training, the T. K. K. liner Tenyo Maru docked at 1:10 this afternoon at Pier 7, from the Orient. She sails at 10 o'clock tomorrow morning for San Francisco, taking mail.

Included in the Tenyo's first-cabin passenger list are 36 Russian engineers, being sent to the United States by the Russian government, to study munition making in American factories, and also to buy munitions for the government.

Passengers for Honolulu were 23 first-cabin, five second, and 230 steerage. There were 94 bags of mail for this port, and 2015 tons of cargo. Through passengers number 163 first-cabin, 18 second, and 210 Asiatics.

Capt. S. Togo and Purser T. C. McCombe reported beautiful weather all the way. The Tenyo left Yokohama December 11.

Entrance of the Tenyo to the harbor was delayed this afternoon by the U. S. naval collier Proteus, which anchored apparently directly across the channel, so that the liner had to maneuver for some time to pass.

The collier anchored off port about 11 o'clock, after the Tenyo had arrived. It was noticed that she was blocking the channel, and Capt. William R. Foster, the harbor master, sent a protest at 11:30 to the naval station authorities for the collier to move to one side. The order was wirelessly out to the ship.

About 1 o'clock this afternoon the T. K. K. liner managed to pass by the collier, although there was not a wide margin of safety. The liner docked at 1:10 at Pier 7, while the Proteus was still outside.
